

StealthCleaner

StealthCleaner Spare part box

Spare part box

The spare parts box is to ensure uptime for StealthCleaner. It is a box that contains all the main components of our multi-tool. StealthCleaner is modular to ensure that the least amount of time goes by to replace/wait to get parts. We have worked in the service boat segment for 20 years and know how difficulties can influence the scheduled job. We have therefore taken into account that you can change parts in the field to ensure operation and increase uptime.

We have developed our own videos that show how the various parts are replaced. See www.ocein.no for more info.
